Integrated Planning and Reporting Framework

In October 2009, the NSW Government's new framework for strategic planning and reporting for local councils came into effect through the introduction of the Local Government Amendment (Planning & Reporting) Act 2009. This act amended the NSW Local Government Act 1993 with regard to Councils strategic planning and reporting requirements.

The Integrated Planning & Reporting framework requires councils to better integrate their various plans and to plan holistically for the future. It requires councils and their communities to have informed discussions about funding priorities, acceptable service levels and to plan in partnership for a more sustainable future.

The framework is an improved way of doing business and ensures that all of council's plans and policies work together to achieve the community's goals. Each council must prepare a number of plans, which provide details on how the Council intends to deliver services and infrastructure across both the short and long term, based on the community priorities that have been identified through community engagement programs.

The Integrated Planning and Reporting Framework is captured in the diagram below:

Introduction

This Long Term Financial Plan has been prepared to:

- confirm and communicate Council's financial objectives and forecasts for the planning period to the community and all of Council's stakeholders; and
- guide the preparation of Council's Annual Budget and Delivery Program within the context of long term financial sustainability.

The Plan provides a framework for sustainable financial management balancing our environmental, social, economic and governance objectives whilst delivering services and facilities to the people of the Uralla Shire Council area.

The Plan provides direction for future service planning and is a critical tool in identifying, leveraging and managing Councils key strengths, risks and opportunities with regard to Council's ongoing capacity and long term financial stability. It also provides a prudent and sustainable financial framework for the longer term from which Council will develop its Operating and Delivery Programs.

The plan is not a static document and will be reviewed annually as part of Council's strategic planning and budget process to ensure it remains reflective of the prevailing internal and external environment.

Aim of this plan

- Establish a long term financial direction encompassing appropriate performance measures against which Council's strategies, policies, plans and financial performance can be measured.
- Establish a robust and prudent financial framework, to which strategies can be integrated to achieve planned outcomes.
- Assist in eliminating strategic financial risks and identify Council's financial strengths and opportunities to be leveraged.
- Ensure that Council complies with sound financial management principles, as required by legislation and adopted plans for the long-term financial sustainability of Council.

Background

Like the majority of Councils in NSW, Uralla Council faces a major challenge in funding its ongoing services whilst simultaneously maintaining and replacing its community assets in a manner which maintains their capacity into the future and at the same time, attempting to keep rates at an equitable and affordable level throughout the community.

The combination of increased costs for labour and materials, increasing demand for services, the shifting of costs from other levels of government, together with a legislative cap on revenue generated from rates (rate pegging), all contribute to a challenging financial environment within which to operate. Therefore, at the core of Uralla Shires future financial sustainability will be the ability to adapt and respond to the challenges we face in delivering services more efficiently, providing increased operational productivity and developing opportunities to generate additional revenue sources.

Long Term Financial Planning (LTFP) is vital for informing Council, our community and other stakeholders about the long term financial position and sustainability of our organisation. The aim of our plan is not only to ensure the financial sustainability of Council over the longer term, but also to provide for the appropriate maintenance and replacement of Council's assets into the future.

The long term financial plan will provide (but not be limited to) the following key benefits:

- An indication of the future financial position and performance of Council;
- A projection of the holistic long term costs of decisions to fully inform debate and ultimately strategic decision making;
- A tool to assist Council to determine the financial sustainability of both current and projected future service levels;
- A method to determine the risks in adopting future strategic directions;
- The capability for Council and the community to test the outcomes of scenarios resulting from different policy settings and service levels;
- A mechanism to test the robustness and sensitivity of key assumptions underpinning a range of strategic planning alternatives; and
- A vital contribution to the development of Council's Asset Management Strategy and all of Council's plans.

Current Financial Position

Council's current financial position continues to be moderate with a General fund operating deficit/break-even that needs to be rectified in the near term and an unrestricted cash balance that needs to increase.

The audited Financial Statements at the 30th June 2019 showed cash and investments of \$16.504 million, being made up of Externally Restricted cash reserves (such as Water, Sewer, Domestic Waste, Developer Contributions and unexpended grants) totalling \$9.613 million, Internally Restricted cash reserves totalling \$5.592 million and Unrestricted cash reserves of \$1.299 million.

The key performance measures upon which council is measured are as follows:

- Operating Performance ratio (0.87)% (should be greater than 0)
- Unrestricted Current Ratio 2.22:1 (above 1.5:1 is considered healthy)
- Debt Service Cover Ratio 11.43 (above 2.0 is considered healthy)
- Own Source Operating Revenue Ratio 70.03% (above 60% is the considered acceptable)
- Rates & Annual Charges Outstanding Ratio 7.37% (below 10% is considered acceptable)
- Cash Expense Cover Ratio 11.5 months (above 3 months is considered healthy)
- Building and infrastructure renewals ratio 95.39% (above 100% is considered appropriate)

Major Revenue Source

Rating

Income from rates and annual charges forms a considerable part of Council's total overall revenue, equating to 32.17% of total income for the 2018/19 financial year (excluding capital grants and profits on the disposal of assets). Rating income is generated from three rating categories, being residential, business and farmland.

Uralla Council's rate base consists of approximately 3,029 rateable properties which in 2020/21 are estimated to generate general rates of approximately \$4.08 million across the three categories. This income constitutes a significant funding source for the delivery of services to the Uralla Shire community.

Council's rates and annual charges revenue as a proportion of total revenue over the past 5 years were as follows:

Year	%
2019	29.91
2018	28.84
2017	28.63
2016	26.61
2015	25.22

Other Income

Council has full control over fee for service revenue in commercial activities. This provides an opportunity to assist in providing financial sustainability and reducing their impact upon the general budget.

Revenue Strategy

The following items are to be pursued as a strategic means of growing our revenue base ultimately increasing income and reducing the reliance on any one revenue source:

- Review all fees and charges and levels of cost recovery with particular attention to discretionary user fees in non-core service areas;
- · Identify and seek additional grant funding;
- Review Council's Borrowing Policy and utilisation of debt;
- Review Council's Section 7.11 Plans and Policies;
- Investigate opportunities for entrepreneurial activities;
- Identify opportunities to rationalise Council's asset base;
- Review service levels and service delivery methods;

- Investigate options for collaboration and/or resource sharing; and
- Consult the community about a special rate variation.

Financial Planning Strategies

The key objective of the long term financial plan remains the achievement of financial sustainability across the short, medium and longer term whilst still achieving Council's broader vision and community goals.

The financial plan is based on the following key strategies:

Sustainability

- Provide spending on infrastructure renewal so that Council's physical assets are maintained to standards that provide functionality and serviceability as noted in the transport asset management plan.
- Rate increases are equitable and not excessive and that the increase can be justified in a positive and transparent manner.
- Provide a pricing strategy for services based on Council's preferred options for service delivery and subsidisation vs user-pays principles.
- New or expansionary community assets to be funded via property development and s64 and s7.11 developer contributions.

Liquidity

- Council has sufficient available cash to meet its debts as and when they fall due.
- Avoid budgets where the liquidity ratios fall below target.
- Utilise loan funds for renewal and replacement for capital purposes and to achieve inter-generational equity in the absence of pre-established reserves to fund this expenditure.
- Utilise a range of reserves to smooth cash flow, particularly in relation to large asset classes and unpredictable outlays such as Employee Leave Entitlement, Waste Management, Plant Replacement and Community Care functions.

Key Financial Assumptions

As part of undertaking financial modelling, key assumptions that underpin the estimates must be made. The following assumptions have been used in the modelling contained within this plan:

Category	Background	Assumption
	Indexed by estimated	
	rises aligned to future CPI	
	estimates & IPART	
Rates	guidance	2.5 to 2.6%
	Based on average increase	
	to Council's major	
User Charges & Fees	operating inputs	1.75 to 2.5%
Interest & Investment	Average estimated return	
Revenue	from prevailing market	0.1 to 3.0%
Grants and	Based on estimated rises	
Contributions -	aligned to future CPI	
Operating	estimates	2.0 to 2.25%
Grants and	Based on estimated rises	
Contributions -	aligned to future CPI	
Capital	estimates	2.0 to 2.25%
	Already established	
	award conditions or	
	estimated wage price	
Employee Costs	index	2.0 to 2.25%
	Already established	
	award conditions or	
	estimated wage price	
Superannuation	index	2.0 to 2.25%

	Indexed by estimated	
	rises aligned to future CPI	
Materials & Contracts	estimates	2.5%
	Based on average long	
	term rates and current	
Borrowing Costs	market quotes	2.0 to 3.5%

- Uralla Shires population has been forecast to continue to remain steady over the period of this plan with no implied dwelling increase over the next ten years. This assumption is based on annual growth estimated by the NSW Department of Planning and Environment.
- Salary increases have been determined based on already adopted award increases for the first year of the plan and an estimated increase of between 2.0 and 2.25% for the remainder.

Financial Performance Measures

Council measures its financial performance reporting in accordance with the Statement of Performance Measures contained within Note 28(a) of the Local Government Code of Accounting Practice and Financial Reporting (Update 28).

Council will review the long term financial Plan each year as part of the development of the next annual Operating Plan. The review will include an assessment of the previous year's performance in terms of the accuracy of the projections made compared with the actual results. The outcome will be used to improve the accuracy of the LTFP over the longer term. The major indicators include:

Measure	What it measures	Target	Calculation			
Operating Performance Ratio	Council's ability to keep operating expenditure at a level below operating revenue.	>0	Operating revenue- Operating expense/Total Operating Revenue			
Debt Service Ratio	The impact that loan principal and interest repayments have on the annual discretionary revenue of Council.	Debt Service costs/Income from con operations less capital income				
Unrestricted Current Ratio	To assess the adequacy of working capital and its ability to satisfy obligations in the short term for the unrestricted activities of council.	>2.25x	Current assets less all external restrictions/Current liabilities less specific purpose liabilities			
Rates & Charges Outstanding percentage	The impact of uncollected rates and annual charges on Council's liquidity and the adequacy of recovery policy and efforts.	<10%	Outstanding rates and annual charges/Revenue from rates and annual charges collectible			
Asset Renewals Ratio	Assess Council's ability to renew its Infrastructure assets compared with the consumption (depreciation) of those assets.	100%	Value of asset renewals/Depreciation expense for the assets			

Financial Plan Scenarios

In developing the long term financial plan, three scenarios have been established to model Council's financial performance and position over the next 10 years. The scenarios are structured as 'layers' where each layer relates to the taking of a more progressive position. The layers are cumulative, so each layer incorporates the assumptions and outcomes of each of the previous layers. The layers are structured as follows:

- 1. Base case scenario
- 2. Planned scenarios
- 3. Alternative scenarios

The scenarios have been informed by prior year costs with existing service levels, known future projects and estimates based on these numbers. This model includes the integration of the Transport Asset Management Plan and the Building Asset Management Plan. It also includes draft Water and Sewer Asset Management Plans. Council has also received a draft report from Sixhills Group Pty Ltd outlining likely capital expenditure on upgrade, renewal and/or refurbishment requirements for McMaugh Gardens that has been integrated within these scenarios. Consideration has been given to Council's current Workforce Plan.

1. Base Case Scenario

This Base Case Scenario is based on the growth of rating income being limited to the rate pegging percentage as determined by IPART without any variation, whilst continuing with current asset maintenance spending levels set to meet expected performance and service levels and their planned lifecycle. The Base Case Scenario highlights the revenue deficiency that Council faces in order to achieve a balanced budget based on current service levels.

The projected General Fund net operating result before grants and contributions provided for capital purposes at the end of the 10 year period would be a deficit of nearly \$15 million. The net decrease in cash and cash equivalents for the General Fund over the 10 year plan is over \$12 million resulting in borrowings of more than \$5.6 million by June 2030. These borrowings represent debt created for operational needs and this practice is often referred to as 'living beyond ones means'. The Base Case Scenario identifies that borrowings will first be required during the 2024/25 financial year and clearly outlines the difficult position Council faces in aligning current service levels, asset maintenance and improvement with current income levels, especially rates income.

The Base Case Scenario includes a first year increase in annual charges for water and sewer of 5% as a first step in delivering on the Council resolution to "Set a strategic objective for both the Water and Sewer Funds to operate during the next ten years at a balanced operating position including the full funding of depreciation, amortisation and impairment of intangible assets and infrastructure, property, plant, equipment". No further changes to the revenue side of

the Water and Sewer Funds have been made in the Base Case Scenario. As a consequence, it is expected that operational borrowings will be required in the Water Fund by June 2025 and in the Sewer Fund by June 2026. Again, this is an indication of 'living beyond ones means'.

The Base Case Scenario is assessed as high risk as it does not deliver a sustainable position and would in fact require either a significant reduction in levels of service/ discontinuation of services, an increase in the asset backlog ratio and/or significant borrowings in order to establish a balanced operational budget.

An additional risk is that in any of the forward years the Federal Government could decide to cease the prepayment of the Financial Assistance Grant. This would require council to borrow a further \$1.4M above what has already been detailed above.

Note: The net operating result before grants and contributions provided for capital purposes is the better measure for income statement purposes because it is assumed that any capital grants will be spent on capital expenditure and should not be used to support operating expenditure.

2. Planned Scenarios

These scenarios include a range of revenue increases aimed at balancing the General, Water and Sewer Funds over the full term of the plan. Each Fund option stands on its own applying user-pay cost recovery to achieve long term sustainability. Alternatively, reductions in expenditure equivalent to the proposed revenue increases could be built into the scenarios provided. There is also an opportunity to reconsider a series of expenditure reductions that have previously been reviewed over the past twelve months. These scenarios require community engagement to enable council to decide on the preferred option to achieve financial sustainability.

The options attached can be summarised as follows:

Fund	Option	Description
General	1	37.5% rate increase (instead of 2.5% rate peg) in 2021/22. The remaining years apply the 2.5%
		rate peg.
	2	11% rate increase over each of the first four years plus a 6% increase in year five (instead of
		2.5% rate peg), starting in 2021/22. The remaining years apply the 2.5% rate peg.
	3	8.5% rate increase over each of the nine years (instead of 2.5% rate peg) starting in 2021/22.
Water	1	37% increase in both annual charges and usage charges (instead of 2.5%) in 2021/22. The
		remaining years apply a 2.5% increase.
	2	12.5% increase in both annual charges and usage charges over each of the first four years
		(instead of 2.5%) plus a 5% increase in year five, starting in 2021/22. The remaining years
		apply a 2.5% increase.
	3	9% increase in both annual charges and usage charges (instead of 2.5%) over each of the nine
		years starting in 2021/22.
Sewer	1	17% increase in annual charges (instead of 2.5%) in 2021/22. The remaining years apply a
		2.5% increase.
	2	6% increase in annual charges over each of the first four years (instead of 2.5%) plus a 3.5%
		increase in year five, starting in 2021/22. The remaining years apply a 2.5% increase.
	3	6% increase in annual charges (instead of 2.5%) over each of the nine years starting in
		2021/22.

Each of these Planned Scenarios provides differing outcomes based upon the percentages adopted and the timeframe over which they are implemented.

As noted above, one alternative to revenue increases would be to reduce service levels and hence a corresponding reduction in costs. The Base Case Scenario identifies that the required reductions from 2021/22 to 2029/30 vary from \$1.25 million up to \$1.75 million.

Rather than adopting a specific increase as suggested above, Council could consider implementing a more strategic decision similar to that already adopted for the Water and Sewer Funds but with a shorter timeframe. That motion could be to "Set a strategic objective for the General Fund to achieve a balanced operating result by 2022/23 including the full funding of depreciation, amortisation and impairment of intangible assets and infrastructure, property, plant, equipment, and to build reserves of \$4 million over the remaining seven years of the long term financial plan."

Alternative Scenarios

The Alternative Scenarios are yet to be developed and could emerge through the community engagement process of the Planned Scenarios above, together with changes to service levels. Examples of service level changes might include a reduction in the number of times each class of unsealed road may be graded each period. Another might be a review of library opening hours or visitor information centre accreditation.

Options to deliver a balanced long term financial plan might include Council workshops to further consider the following:

- a) A review of current service standards
- b) Shire continuity and council sustainability including a review of financial performance measures;
- c) Community engagement on the above to address:
 - a. How Council increases revenue by approximately \$2 million per year; and/or
 - b. Decreases service levels by approximately \$2 million per year; and/or
 - c. A combination of a) and b)

to achieve a financially sustainable future.

d) Develop a final draft long term financial plan.

Sensitivity Analysis/Risk Assessment

The LTFP 2030 is a continuation of Councils previous long term financial plan under the new Integrated Planning and Reporting Framework requirements. However, it should be noted that some of Councils reconstructed Resourcing Strategy plans are still being finalised. The LTFP now incorporates the adopted Transport Asset Management Plan and the Buildings Asset Management Plan. It also incorporates draft Plant & Equipment Asset Management Plan (adjusted), draft Water Asset Management Plan and a draft Sewer Asset Management Plan. Other capital expenditure and maintenance projections in this plan have been based on historical information and some more accurate estimates for the first year of the plan.

The following risk factors have been considered in the development of this long term financial plan and whilst some factors would only have a minor impact on the projections, others could have a more significant impact.

Areas which would have a particular impact on the projections, should they occur, include:

- Estimates to fund infrastructure renewal, replacement and significant on-going asset maintenance being inaccurate;
- Rates increase being lower than anticipated;
- · Construction costs being higher than anticipated;
- Utility expenses being higher than estimated;
- Significant fluctuations in the rate of return for investments;
- Workers compensation insurance costs;
- Further spikes in the payments required to the Defined Benefit Superannuation scheme;
- Award determined staff related expenses increasing more than anticipated.

There are also external factors beyond the influence of Council which could also impact on the model, including:

- Further cost shifting from other levels of Government;
- Freezes to the indexation of recurrent operating grants;
- Changes to the taxation regime;
- Changes to the superannuation guarantee legislation;
- Forced amalgamation of Councils;
- Natural Disasters.

Scenarios by Fund

As attached and marked 'First Draft Reports to First Draft LTFP'

Base Case Scenario - All Funds and consolidated

Planned Scenario 1 – General, Water and Sewer Funds only

Planned Scenario 2 – General, Water and Sewer Funds only

Planned Scenario 3 – General, Water and Sewer Funds only
