

### **WORK EXPERIENCE AT COUNCIL**

Uralla Shire Council is a supporter of student work experience that helps in the development of skills and provides first hand workplace experience in a variety of jobs.

Council endeavours to provide work experience opportunities for students within our community who are currently enrolled in a course of study with a recognised educational provider or institution.

Students are required to provide Council with supporting paperwork for the work experience placement from their school or other institution.

Please allow at least 10 working days from the date of lodging your supporting paperwork to the commencement date of the work experience placement. This will allow Council time to identify the best opportunity and liaise with your school or other educational institution to finalise and confirm your placement.
