Enterprise Risk Management Policy

Council's enterprise risk management framework provides the foundations and organisational arrangements for pursuing opportunities by designing, implementing, monitoring, reviewing and continually improving risk management throughout the organisation. Council understands that unmanaged, unrecognised risks can adversely impact its stakeholders and its ability to pursue opportunities to achieve strategic and operational objectives. Accordingly Council is committed to a whole of organisation approach to enterprise risk management.

We are committed to integrated, consistent and efficient management of risks to support the achievement of our strategic and operational objectives and to maximise our opportunities.

Council will develop a risk matrix to allow risk prioritisation. Key risks will be identified and managed to mitigate risks to meet the Council's risk appetite. Council will regularly review identified organisational risks as well as emerging risks to facilitate appropriate resource allocation and risk management.

To demonstrate our commitment we will:

- ✓ Provide adequate training and equipment to our people so they can be accountable and responsible for the management and reporting of risks
- ✓ Create a culture where the identification and management of risk is embedded as an integral part of our business practice and decision making
- ✓ Apply risk tolerance levels as approved by the executive to enable appropriate management and reporting of risk
- ✓ Seek to fully understand risks that are material to our safety, our business or affect our community
- ✓ Continually improve the effectiveness of our management of risk to support the achievement of our strategic and operational objectives and to maximise our opportunities.
- ✓ Actively monitor the external and internal business environment to identify emerging risks.

In pursuit of the objectives of the Community Strategic Plan, we will comply with legislative and regulatory requirements and manage our risks to preserve and create value across the organisation.

This policy applies to all our employees and contractors and to any person or organisation that acts or represents us.

Adopted by Council: 27 October 2020

Signed by the Executive:
