Know how to keep kids safe around windows?

Each year, around 50 children fall from windows or balconies in Australia. Many suffer serious injuries. Sometimes these falls are fatal.

NSW Fair Trading has two great new YouTube videos on child window safety. These bite-sized videos deliver a simple yet vital message – window locks could save your child's life and can be easy and cheap to install!

On You Tube watch:

[Window locks save lives](#)

Link: <http://youtu.be/9rdtXxzXhgo> and

[How to install window locks](#)

Link: <http://youtu.be/2qD-PmC7i4A>

These videos are essential viewing for all parents and grandparents. They provide:

- simple tips on how to prevent falls from windows and balconies in your home
- easy step-by-step instruction on how to install window locks, and more.

Remember, do not be fooled by fly screens – they are not strong enough to stop a child falling out of an open window. Toddlers aged between 2 and 4 are most at risk of window falls because they are top heavy and are too young to judge potential danger.
