

NOTICE OF DETERMINATION OF A DEVELOPMENT APPLICATION

Application number	DA-5-2024 PAN-412075
Applicant	Christine Ann McDougall [REDACTED]
Description of development	Outbuilding (Shed) Rainwater Tank (for Stormwater Detention)
Property	16 COOPER STREET URALLA 2358 2/-/DP1285964
Determination	Approved Consent Authority - Council staff under delegated authority
Date of determination	11/04/24
Date from which the consent operates	11/04/24
Date on which the consent lapses	11/04/29

Under section 4.18(1) of the EP&A Act, notice is given that the above development application has been determined by the granting of consent using the power in section 4.16(1)(a) of the EP&A Act, subject to the conditions specified in this notice.

Right of appeal / review of determination

If you are dissatisfied with this determination:

Request a review

You may request a review of the consent authority's decision under section 8.3(1) of the EP&A Act. The application must be made to the consent authority within 6 months from the date that you received the original determination notice provided that an appeal under section 8.7 of the EP&A Act has not been disposed of by the Court.

Rights to appeal

You have a right under section 8.7 of the EP&A Act to appeal to the Court within 6 months after the date on which the determination appealed against is notified or registered on the NSW planning portal.

The Dictionary at the end of this consent defines words and expressions for the purposes of this determination.

Simon Vivers
Interim Manager Development and Planning
Person on behalf of the consent authority

Terms and Reasons for Conditions

Under section 88(1)(c) of the EP&A Regulation, the consent authority must provide the terms of all conditions and reasons for imposing the conditions other than the conditions prescribed under section 4.17(11) of the EP&A Act. The terms of the conditions and reasons are set out below.

General Conditions

1	Compliance with Building Code of Australia and insurance requirements under Home Building Act 1989 1. It is a condition of a development consent for development that involves building work that the work must be carried out in accordance with the requirements of the Building Code of Australia. 2. It is a condition of a development consent for development that involves residential building work for which a contract of insurance is required under the Home Building Act 1989, Part 6 that a contract of insurance is in force before building work authorised to be carried out by the consent commences. 3. It is a condition of a development consent for a temporary structure used as an entertainment venue that the temporary structure must comply with Part B1 and NSW Part H102 in Volume 1 of the Building Code of Australia. 4. In subsection (1), a reference to the Building Code of Australia is a reference to the Building Code of Australia as in force on the day on which the application for the construction certificate was made. 5. In subsection (3), a reference to the Building Code of Australia is a reference to the Building Code of Australia as in force on the day on which the application for development consent was made. 6. This section does not apply— a. to the extent to which an exemption from a provision of the Building Code of Australia or a fire safety standard is in force under the Environmental Planning and Assessment (Development Certification and Fire Safety) Regulation 2021, or b. to the erection of a temporary building, other than a temporary structure to which subsection (3) applies. Condition reason: Prescribed condition under section 69 of the Environmental Planning and Assessment Regulation 2021.
2	Erection of signs 1. This section applies to a development consent for development involving building work, subdivision work or demolition work. 2. It is a condition of the development consent that a sign must be erected in a prominent position on a site on which building work, subdivision work or demolition work is being carried out— a. showing the name, address and telephone number of the principal certifier for the work, and

	b. showing the name of the principal contractor, if any, for the building work and a telephone number on which the principal contractor may be contacted outside working hours, and c. stating that unauthorised entry to the work site is prohibited. 3. The sign must be— a. maintained while the building work, subdivision work or demolition work is being carried out, and b. removed when the work has been completed. 4. This section does not apply in relation to— a. building work, subdivision work or demolition work carried out inside an existing building, if the work does not affect the external walls of the building, or b. Crown building work certified to comply with the Building Code of Australia under the Act, Part 6.															
	Condition reason: Prescribed condition under section 70 of the Environmental Planning and Assessment Regulation 2021.															
3	Notification of Home Building Act 1989 requirements 1. This section applies to a development consent for development involving residential building work if the principal certifier is not the council. 2. It is a condition of the development consent that residential building work must not be carried out unless the principal certifier for the development to which the work relates has given the council written notice of the following— a. for work that requires a principal contractor to be appointed— i. the name and licence number of the principal contractor, and ii. the name of the insurer of the work under the Home Building Act 1989, Part 6, b. for work to be carried out by an owner-builder— i. the name of the owner-builder, and ii. if the owner-builder is required to hold an owner-builder permit under the Home Building Act 1989—the number of the owner-builder permit. 3. If the information notified under subsection (2) is no longer correct, it is a condition of the development consent that further work must not be carried out unless the principal certifier has given the council written notice of the updated information. 4. This section does not apply in relation to Crown building work certified to comply with the Building Code of Australia under the Act, Part 6.															
	Condition reason: Prescribed condition under section 71 of the Environmental Planning and Assessment Regulation 2021.															
4	Approved plans and supporting documentation Development must be carried out in accordance with the following approved plans, except where the conditions of this consent expressly require otherwise. Approved plans <table><tr><td>Plan number</td><td>Revision number</td><td>Plan title</td><td>Drawn by</td><td>Date of plan</td></tr><tr><td>-</td><td>-</td><td>Site Plan (as annotated Council)</td><td>-</td><td>-</td></tr><tr><td>-</td><td>-</td><td>Building Drawings</td><td>North Coast Shed</td><td>12.02.2024</td></tr></table>	Plan number	Revision number	Plan title	Drawn by	Date of plan	-	-	Site Plan (as annotated Council)	-	-	-	-	Building Drawings	North Coast Shed	12.02.2024
Plan number	Revision number	Plan title	Drawn by	Date of plan

		Page 2 of 2	Market	
	In the event of any inconsistency with the approved plans and a condition of this consent, the condition prevails.			
	Condition reason: To ensure all parties are aware of the approved plans and supporting documentation that applies to the development.			
5	Materials			
	External facing materials must be non-reflective. Zinalume is not permitted.			
	Condition reason: In the interests of maintaining expected amenity levels for the zone.			

Building Work

Before issue of a construction certificate

6	Construction Certificate
	In accordance with the provisions of Section 6.6 and 6.7 of the Environmental Planning and Assessment Act 1979, construction works approved by this consent must not commence until:
	a) a Construction Certificate has been issued; b) the NSW Planning Portal has been advised of; (i) the intention to commence work; and (ii) the specific Principal Certifying Authority (building inspector) that has been appointed to the project.
	Documentation required under this condition must show that the proposal complies with all relevant development consent conditions and is not inconsistent with the approved plans, the Building Code of Australia and the relevant Australian Standards.
	Condition reason:
7	Section 68 Approvals
	Before issue of a construction certificate, an approval is required under Section 68 of the Local Government Act for:
	• Water, Sewer or Drainage work
	Condition reason: To ensure the appropriate section 68 approvals are in place prior to issue of a construction certificate for the development.
8	Section 138 Approval (Advice Only)
	Advice Only: A Driveway Crossover has not been required as part of this approval, given the bonded works to occur in relation to Cooper Street conditioned under DA-64-2017. Please be advised that this is not standing advice: should a dwelling be lodged, a driveway crossover would be required.
	Condition reason: Advice.

Before building work commences

9	Erosion and sediment controls in place
	Before any site work commences, the principal certifier must be satisfied suitable erosion and sediment controls are in place. These controls must remain in place until any bare earth has been restabilised in accordance with 'Managing Urban Stormwater: Soils and Construction' prepared by Landcom (the Blue Book) (as amended from time to time).
	Condition reason: To ensure sediment laden runoff and site debris do not impact local stormwater systems and waterways.

During building work

10	Discovery of relics and Aboriginal objects
	While site work is being carried out, if a person reasonably suspects a relic or Aboriginal object is discovered: 1. the work in the area of the discovery must cease immediately; 2. the following must be notified 1. for a relic – the Heritage Council; or 2. for an Aboriginal object – the person who is the authority for the protection of Aboriginal objects and Aboriginal places in New South Wales under the National Parks and Wildlife Act 1974, section 85. Site work may recommence at a time confirmed in writing by: 1. for a relic – the Heritage Council; or 2. for an Aboriginal object – the person who is the authority for the protection of Aboriginal objects and Aboriginal places in New South Wales under the National Parks and Wildlife Act 1974, section 85.
	Condition reason: To ensure the protection of objects of potential significance during works.
11	Hours of work
	Site work must only be carried out between the following times : • 7am to 6pm on Monday to Friday AND 8am to 1pm on Saturday Site work is not to be carried out outside of these times except where there is an emergency, or for urgent work directed by a police officer or a public authority.
	Condition reason: To protect the amenity of the surrounding area.
12	Noise and Vibration requirements
	While site work is being carried out, noise generated from the site must not exceed an LAeq (15 min) of 5dB(A) above background noise, when measured at a lot boundary of the site.
	Condition reason: To protect the amenity of the neighbourhood during construction.
13	Procedure for critical stage inspections
	While building work is being carried out, the work must not continue after each critical stage inspection unless the principal certifier is satisfied the work may proceed in accordance with this consent and the relevant construction certificate.
	Condition reason: To require approval to proceed with building work following each critical stage inspection.
14	Stormwater Disposal

	Roof stormwater shall be: - collected and controlled through detention (water tank or similar that is not closed off and has a restricted outlet[s]) and released away from property boundaries and footings to control peak flow discharge from the site to the equivalent of the pre-existing undeveloped area discharge of the site. The above stormwater infrastructure is to be installed during building work as soon as the roof is constructed. Any tank must: - Not exceed 30,000L, unless further planning permission is obtained; and - Be sited at least 900mm from side and rear boundary; and - Not be sited forward of the approved outbuilding. ADVICE: Stormwater may be directed to Cooper Stree or similar lawful point following completion of bonded works. This condition is considered reasonable for an outbuilding, but is not standing advice for a future dwelling. Condition reason: To alleviate any potential stormwater problems with respect to the buildings on the allotment or adjoining allotments.
15	Plumbing and Drainage Any required plumbing and drainage work shall comply with the Plumbing and Drainage Act 2011, Plumbing and Drainage Australian Standard AS3500, Plumbing Regulations 2017 and the Plumbing Code of Australia (NCC 2016). Condition reason: To ensure that plumbing and drainage work meets relevant standards.

Before issue of an occupation certificate

16	Application for an Occupation Certificate The relevant Occupation Certificate must be obtained before the approved use commences, in accordance with the Environmental Planning & Assessment Act 1979 and to ensure the health and safety of the building's occupants. ADVISING: Failure to obtain an Occupation Certificate is an offence under the legislation Condition reason: To ensure the building is suitable for occupation (in accordance with its BCA classification).
17	Plumbing and Drainage Prior to issue of an occupation certificate, the principal certifier shall be provided with a copy of the Final Plumbing and Drainage Certificate confirming compliance with the Plumbing and Drainage Act 2011. Condition reason: To ensure any plumbing and drainage work complies with the relevant requirements of the Plumbing and Drainage Act 2011
18	Stormwater Disposal Details of compliance with Conditon 14 shall be provided to the principall certifier for approval before issue of an Occupation Certificate. Condition reason: For the avoidance of doubt and to ensure that stormwater is adequately

disposed of.

Occupation and ongoing use

19	Use Limitations
	The approved outbuilding shall • not be used for any habitable purposes without the benefit of further planning permission; and • not be occupied on any commercial or industrial basis (unless exempt under relevant Environmental Planning Instruments) without the benefit of further planning
	Condition reason: To ensure that use of the approved development is consistent with the expectations for the zone and to minimise risk of non-compliance associated with an outbuilding preceding a dwelling on residential land.
20	Stormwater Disposal
	Stormwater shall be managed in accordance with the requirements specified within Condition 14.
	Condition reason: For the avoidance of doubt and in the interests of stormwater management.

General advisory notes

This consent contains the conditions imposed by the consent authority which are to be complied with when carrying out the approved development. However, this consent is not an exhaustive list of all obligations which may relate to the carrying out of the development under the EP&A Act, EP&A Regulation and other legislation. Some of these additional obligations are set out in the [Conditions of development consent: advisory notes](#). The consent should be read together with the *Conditions of development consent: advisory notes* to ensure the development is carried out lawfully.

The approved development must be carried out in accordance with the conditions of this consent. It is an offence under the EP&A Act to carry out development that is not in accordance with this consent. Building work or subdivision work must not be carried out until a construction certificate or subdivision works certificate, respectively, has been issued and a principal certifier has been appointed.

A document referred to in this consent is taken to be a reference to the version of that document which applies at the date the consent is issued, unless otherwise stated in the conditions of this consent.

Dictionary

The following terms have the following meanings for the purpose of this determination (except where the context clearly indicates otherwise):

Approved plans and documents means the plans and documents endorsed by the consent authority, a copy of which is included in this notice of determination.

AS means Australian Standard published by Standards Australia International Limited and means the current standard which applies at the time the consent is issued.

Building work means any physical activity involved in the erection of a building.

Certifier means a council or a person that is registered to carry out certification work under the *Building and Development Certifiers Act 2018*.

Construction certificate means a certificate to the effect that building work completed in accordance with specified plans and specifications or standards will comply with the requirements of the EP&A Regulation and *Environmental Planning and Assessment (Development Certification and Fire Safety) Regulation 2021*.

Council means URALLA SHIRE COUNCIL.

Court means the Land and Environment Court of NSW.

EPA means the NSW Environment Protection Authority.

EP&A Act means the *Environmental Planning and Assessment Act 1979*.

EP&A Regulation means the *Environmental Planning and Assessment Regulation 2021*.

Independent Planning Commission means Independent Planning Commission of New South Wales constituted by section 2.7 of the EP&A Act.

Occupation certificate means a certificate that authorises the occupation and use of a new building or a change of building use for an existing building in accordance with this consent.

Principal certifier means the certifier appointed as the principal certifier for building work or subdivision work under section 6.6(1) or 6.12(1) of the EP&A Act respectively.

Site work means any work that is physically carried out on the land to which the development the subject of this development consent is to be carried out, including but not limited to building work, subdivision work, demolition work, clearing of vegetation or remediation work.

Stormwater drainage system means all works and facilities relating to:

- the collection of stormwater,
- the reuse of stormwater,
- the detention of stormwater,
- the controlled release of stormwater, and
- connections to easements and public stormwater systems.

Strata certificate means a certificate in the approved form issued under Part 4 of the *Strata Schemes Development Act 2015* that authorises the registration of a strata plan, strata plan of subdivision or notice of conversion.

Sydney district or regional planning panel means Northern Regional Planning Panel.
